## AVATAR THE WAY OF WATER

## Avatar: The Way of Water

I'm not the biggest fan of Avatar 1, so I wasn't expecting much from Avatar: The Way of Water. I surprisingly enjoyed this action-packed follow-up to the first Avatar film. The plot isn't really complicated. It revolves around a blue-skinned humanoid Na'vi named Jake Sully (Sam Worthington) as he and his family, under renewed human threat, seek refuge with the aquatic Metkayina clan of Pandora, a habitable exomoon on which they live. The acting is first-rate, as you would've expected from actors like Sam Worthington and Zoe Saldana, and the other cast also performed very well. The script is amazing and I am absolutely satisfied with it. As for the visual effects, they totally nailed it as the creatures and the plants were very realistic. Overall, Avatar: The Way of Water was really nice to watch and I really liked it. I will totally recommend everyone to watch it when you have the time.
