

Upper PET – Preliminary English Test

Hi, I'm Keerthika and I'm a student in the Upper PET level. Studying with a B1 Preliminary qualification will enable me to read easy textbooks and articles in English, compose letters and emails on common topics, comprehend factual information, and demonstrate understanding of viewpoints and mood in spoken and written English. It trains me from all aspects to be a competent English user. I am more confident when answering examinations such as the PT3 examination.
